

# Bedford Adult Learning Disability Team

## About Us

An integrated team

A specialist service

# What we do

The team can offer support and advice with:

Health Care needs  
Social Care needs

# Person Centred Approach

- ▶ At each stage of the client pathway the client chooses where when how they want to be assessed and supported.
- ▶ The focus is on what is important to the client

# Assessment :

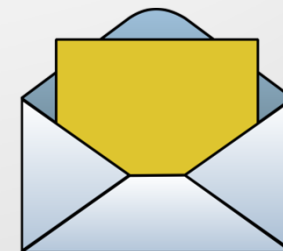

- ▶ We can visit you at home

- ▶ We can meet at a place where you feel most comfortable

- ▶ We can send you a Self assessment form

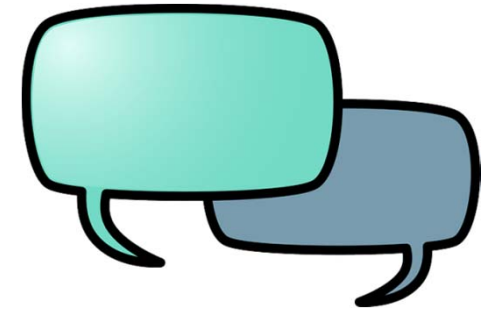

# Assessment

- ▶ You can talk to us over the telephone
- ▶ You can tell us who you want to attend and be involved in the assessment (advocate, friend, another important person)

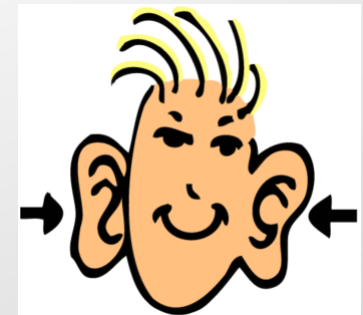

# Feedback

We have begun to use Supported Self Assessment forms. The feedback is they are more empowering to the person having an assessment.

Those who have used the Self Assessment forms have also given feedback they have been able to put how their difficulty most affects them in 'their own words'.

Any questions
