

Public Health England Autism Self Assessment 2014/15

Central Bedfordshire Council
Bedford Borough Council
Luton Borough Council

Purpose of the autism self assessment framework?

- Reviewing progress and helps to support future planning
- Covers the priorities set out in the Think Autism update to the Strategy published earlier this year
- Helps to identify the progress in the implementation of the Strategy across the country
- All information is analysed by the Public Health England learning disabilities observatory

Background to the autism self assessment framework

- 3rd self assessment
- It builds on the second self-assessment exercise submitted in 2013
- The self assessments requires a multi-agency perspective to reflect the requirements of the implementation of the strategy
- All local responses are published in full online
- Previous submissions can be found at:
www.ihal.org.uk/projects/autism2013

Data gathering

- Each local authority is currently gathering data
- A variety of services have been requested to participate in this document including:
 - Local authorities
 - Criminal Justice Services
 - Health services
 - Local 3rd sector agencies
- We have also requested 'i-stories'

Next steps

- All information will be processed through each local authority procedures
- All partnership board members will be asked to review and comment (between 16th and 27th of February 2015)
- Information will be submitted to Public Health England by the 9th March 2015
- Information will be submitted to each local authority 'Overview and Scrutiny' meeting and Health and Wellbeing Board's
